Fate Game Download Full Version Fate begins with the game character or hero named Fate who is banished from his home, the Realm of the Gods, by his father, the King of the Gods. He is an exile from the home where his powers and knowledge are not appreciated. Fate is weary of all the battles he has fought against evil in his mortal life. Fate is determined to leave the arena, and seek out adventure and glory in the world he knew all his life. He enters into the dark forests of the earth, and is attacked by a man in a black tunic and dark cape named Londair. Fate defeats him and asks for his help. Londair agrees to help Fate, and for this he gives Fate a book and a strange medallion. After this, Fate completes his journey into the Kingdom of the Gods, eventually taking the throne of the Gods, and bring glory to his people. He must now balance between good and evil, or face terrible consequences. Gameplay The game is presented in a role-playing game (rpg) style. The player must f678ea9f9e
